## **Public Comment at Meetings of the Hayes Township Planning Commission**

The Hayes Township Planning Commission values public input and offers an opportunity for the public to comment at its meetings. This affords the Planning Commission the opportunity to hear your views and remarks. If you speak, you should not expect to engage the Planning Commission members or any staff in discussion or debate.

Planning Commission Members will not respond to comments made during the Public Comment unless it becomes necessary to ask a clarifying question, correct a factual error, or to provide specific factual information.

Questions about Township matters are best directed to individual Board members or Township staff (Planner, Zoning Administrator, or Assessor) between meetings. Contact information is available on the township website at: [hayestownshipmi.gov](http://hayestownshipmi.gov).

The availability of public comment is recognized by the Michigan Open Meetings Act. The Act provides that rules may be adopted for orderly comment from the public. To that end, the following rules have been established by the Planning Commission:

1. A person who wishes to speak during Public Comment will sign in and signify that they would like to speak on the form.
2. The person will begin by stating their name, spelling it out if requested.
3. The person addresses the Chairperson, or other person chairing the meeting, on behalf of the entire Planning Commission. Public comment is NOT to be addressed to individual Planning Commission members, to any township staff present, or to other members of the audience.
4. For the first Public Comment period, there is a three (3) minute time allotment for each speaker. The time limit may be extended by the Chairperson or majority of the Planning Commission members present. If a speaker uses less than three (3) minutes, they may not use the remaining time at that Public Comment. A speaker may speak only once at Public Comment. There is no provision for another audience member to 'donate' their three (3) minutes to another speaker. For the second Public Comment session speakers are limited to two (2) minute each.
5. A speaker will be out of order if the speaker disrupts the meeting, fails to be germane, speaks longer than the allotted time, uses vulgarities or makes a personal attack on a Planning Commission member or Township employee that is unrelated to the performance of that person's duties.
6. If a speaker is called out of order, that speaker will not be able to speak again at the same meeting except by special leave of the Planning Commission. If the speaker continues to disrupt the meeting or is disorderly, law enforcement will be called to remove the speaker.
7. The Chairperson, or other person chairing the meeting, will have the discretion to permit members to speak at times other than the times reserved for Public Comment.

He does not receive any pay nor does he direct any action of the staff. He has checked with the applicant and Township Counsel, both approved as they see no conflict.

**SPECIAL USE PERMIT HEARING CHARLEVOIX CLUB PARK, LLC- ASSISTED LIVING CENTER:**

Mr. Griffiths opened the public hearing at 7:04 pm.

The purpose of this hearing to review a Special Use Permit for a new 40 unit assisted living and memory care facility.

Lori Raynaert Stated she lives locally and will be primary working at the US 31 location once the facility starts taking in clients. She is a Psychiatric Nurse and specializes in dementia.

Shelly Maynard is also a registered nurse with over 30 years of experience.

Shelly stated they currently have a 40 bed facility located in Sanford Michigan, that has been open for about seven and a half years. The Facility they are proposing for Hayes Township is

identical to their facility in Sanford. The Facility in Hayes Township will have 20 beds for Assisted Living and 20 beds for Memory Care patients. The facility will be secured on both the assisted and memory care sides.

Performance Engineer Representative stated the site will be accessed from US 31 to a service drive. The area between US 31 and the service road will not be disturbed and remain as is. Storm water will be managed in the front and back of the building. There will be two entrances to the parking lot. There has been a wetland delineation done on the parcel, there are wetlands on the parcel and the proposed layout of the facility will not disturb the wetlands. They have submitted a lighting plan, the current facility has the same lighting plan and presented pictures show the low light and shielded lighting. The proposed facility has buffer from the highway and utilities are available. They are requesting a reduction in the parking area required by the Hayes Township zoning ordinance, which will reduce the amount of impervious surface. Based on the current facility they own and operate there is not a need for the large parking area, clients of the facility rarely have their own vehicles.

Ron Stated the applicant has been great to work with, They have responses from the Fire, EMS and Sheriff. The Hearing was posted on February 22<sup>nd</sup> 2025 and the notice went out to all parcels within 300 feet. They are requesting a parking reduction and he recommends looking at the Landscaping buffering section of the ordinance as well. The Planning Commission will need to review the Supplemental Site standard for Nursing Homes, and Assisted Living Facilities as well as the Standards for granting a Special Use Permit and Site Plan Review.

Public Comment Opened at 7:18pm

Comments included:

- Stated they live across the road from where they propose the new Assisted Living Center.

Supports the proposed plan to keep the trees between the proposed facility and the Highway.

- Stated they support this proposed facility. Curious to know the desire to be located on US 31, will it be quiet and peaceful enough for the residents living there. Stated they encourage keeping Hayes Township Rural.

- Lori stated the back part will be quiet and nature filled. Some residents enjoy watching the traffic and seeing the busy life. The location offers utilities which is very important and the parcel must be 5 acres per state regulations.

- Stated they support the proposed facilities and support keeping the lot full of native plantings.

Asked if there would be housing for the workers.

- Shelly stated there will not be any housing for employees and look forward to keeping the parcel rural.

Mr. Griffiths address the parking reduction request, the ordinance requires 60 parking spaces based on size and occupancy levels.

Lori stated typically their residents do not drive therefore they have no need for the large parking area.

Mr. Griffiths requested Ron to clarify his concern of the Landscape Buffering for the parcel.

Mr. VanZee stated leaving the trees between the highway and the easement road is great, is concerned however that if there is any damaged to the buffer area during construction that it be replaced/restored. Supports the decrease in parking to decrease the amount of impervious surface.

Mr. Griffiths stated the in the Fire Chiefs letter he mentioned the standards for the front canopy for fire safety.

Lori Stated the canopy is designed identically to their current facility and it meets all the requirements.

Mr. Greenslade stated in the Hayes Township Ordinance under 11C it mentions, "a facility should provide a minimum for 1500 square feet of open space." Would like to know the applicants plan for open space for their facility.

Lori explained that in between the two wings at the rear of the building, one for Memory care and one for Assisted living, they have an open and secured area that they refer to as the courtyard which has a pavilion and is completely fenced in.

Mr. Griffiths stated it would be important to separate the different needs between the Assisted Living patients and the Memory Care patients. Assisted Living patients generally can care for themselves to some degree and need access to the outdoors. However

Lori Stated all the assisted living clients have access to the secured outdoor area and most of them enjoy spending time walking and sitting outside around the Pavilion as well as other benches on the grounds that provide shaded seating for them in the outdoor area. The activities director will do activities outdoors weather permitting.

Mr. Griffiths stated the ZBA hearing was on the Law property and it was specific to the Law property. Camp Seagull is owned by the Township, The conservancy is privately owned and open to the public which falls under a different criteria from Township property. Tonight the Planning Commission worked with an applicant to screen a business from public view however there is existing businesses located in Hayes Township that are not screened and the changes cannot be made without a request from the applicant. One area that could be improved for example is the signage.
