Public Comment at Meetings of the Hayes Township Planning Commission

The Hayes Township Planning Commission values public input and offers an opportunity for the public to comment at its meetings. This affords the Planning Commission the opportunity to hear your views and remarks. If you speak, you should not expect to engage the Planning Commission members or any staff in discussion or debate.

Planning Commission Members will not respond to comments made during the Public Comment unless it becomes necessary to ask a clarifying question, correct a factual error, or to provide specific factual information.

Questions about Township matters are best directed to individual Board members or Township staff (Planner, Zoning Administrator, or Assessor) between meetings. Contact information is available on the township website at: hayestownshipmi.gov.

The availability of public comment is recognized by the Michigan Open Meetings Act. The Act provides that rules may be adopted for orderly comment from the public. To that end, the following rules have been established by the Planning Commission:

1. A person who wishes to speak during Public Comment will sign in and signify that they would like to speak on the form.
2. The person will begin by stating their name, spelling it out if requested.
3. The person addresses the Chairperson, or other person chairing the meeting, on behalf of the entire Planning Commission. Public comment is NOT to be addressed to individual Planning Commission members, to any township staff present, or to other members of the audience.
4. For the first Public Comment period, there is a three (3) minute time allotment for each speaker. The time limit may be extended by the Chairperson or majority of the Planning Commission members present. If a speaker uses less than three (3) minutes, they may not use the remaining time at that Public Comment. A speaker may speak only once at Public Comment. There is no provision for another audience member to 'donate' their three (3) minutes to another speaker. For the second Public Comment session speakers are limited to two (2) minute each.
5. A speaker will be out of order if the speaker disrupts the meeting, fails to be germane, speaks longer than the allotted time, uses vulgarities or makes a personal attack on a Planning Commission member or Township employee that is unrelated to the performance of that person's duties.
6. If a speaker is called out of order, that speaker will not be able to speak again at the same meeting except by special leave of the Planning Commission. If the speaker continues to disrupt the meeting or is disorderly, law enforcement will be called to remove the speaker.
7. The Chairperson, or other person chairing the meeting, will have the discretion to permit members to speak at times other than the times reserved for Public Comment.

HAYES TOWNSHIP
BOARD OF TRUSTEES SPECIAL MEETING
DECEMBER 11TH, 2025 6:30 PM
HAYES TOWNSHIP HALL
09195 MAJOR DOUGLAS SLOAN RD
CHARLEVOIX, MICHIGAN 49720

The December 11th, 2025, special meeting of the Hayes Township Board was called to order by Roy Griffiths at 6:30 pm.

Board members present were Matt Cunningham (Trustee), Julie Collard (Treasurer), Doug Kuebler (Trustee), and William Conklin (Supervisor).

Excused: Kristin Baranski (Clerk)

Planning Commission Members Present: Roy Griffiths (Chair), Matt Cunningham, Rex Greenslade, Alexander Curley and Carey Cuddeback.

Excused: CT Martin and Mark Snyder.

Audience Members signed in: Jim Rudolph, Larry Cuddeback, Jim McMahon, Mel Czechowski, David Zipp, Carol Umlor, Tim Boyko, and LuAnne Kozma.

CALL TO ORDER

Roy Griffiths called the meeting to order at 6:30 pm.

Mr. Griffiths stated the topic tonight is the Master Plan draft, not the zoning map or any other topic. The draft plan is a work in progress and is improved by constructive feedback from all sources. It is not a final document and should not be treated as such. We have not updated anything since it was released for comment and all updates will occur at the end of the comment period. We are interested in comments that are substantive not stylistic. The 3-minute rule was agreed to by both the Supervisor and himself. For this to be an effective meeting, reasonable conduct must happen. Unruly outbursts will result in the meeting being adjourned and not rescheduled. This is not the official public hearing.

REVIEW AND APPROVAL OF AGENDA:

Remove “only related to master plan” from the public comment period.

Mr. Kuebler made a motion, supported by Mr. Curley, to approve the December 11th 2025 Special Meeting Agenda as amended.

Yeas: Roy Griffiths (Chair), Rex Greenslade, Alexander Curley, Carey Cuddeback, Matt Cunningham, Julie Collard, Doug Kuebler and William Conklin.

BOARD OF TRUSTEES SPECIAL MEETING
DECEMBER 11TH, 2025 6:30 PM
HAYES TOWNSHIP HALL
09195 MAJOR DOUGLAS SLOAN RD
CHARLEVOIX, MICHIGAN 49720

DRAFT MASTER PLAN OVERVIEW:

So far, we have received written public feedback from Boyko, Rudolf, Henne, Kozma, and McMahon. We appreciate the written comments as it gives an opportunity to reflect on them and consider if and how they may be incorporated into the final plan. The large format maps are on display and if needed we can take a few minutes to allow people to look at them. They are available online in the Planning Commission 12/11 Special Meeting Packet under documents section.

PUBLIC COMMENTS:

Public comment opened at 6:36

- Future Land Use Map (Townline Road Area), Traffic Concerns, Keeping Hayes Township Rural, Master plan changes in chapters 8 and 9, protecting water quality and quantity, Data Centers, pollution, more joint meetings regarding master plan, 63 day review period, request for a mailer for tonight's meeting and future meetings when the master plan is discussed, Pending lawsuit, Housing section, appreciation for all the townships hard work on the Master Plan draft, Michigan Shores Area, Algae, and Septic Systems.
Closed at 6:54.

BOARD OF TRUSTEE/PLANNING COMMISSION COMMENT:

Ms. Cuddeback stated it is important to look at the facts and data from the survey and county resources when looking at the contents of the Master Plan Draft updates. As an example, the amount of conservancy land has increased within Hayes Township which helps keep Hayes Township rural. Hayes Township is a bedroom community which increases the residential demand. Keeping the township rural while facing the increased residential need is very important to the boards.

Mr. Griffiths stated it has been suggested and the idea has some real merit that we should probably not have a zoning district titled conservancy, but rather that we have a conservancy overlay ordinance similar in structure to the waterfront ordinance. By someone putting their property into conservancy, it does not trigger an automatic rezone. However, if you have an overlay ordinance, when someone puts property into conservancy, then the criteria that we use in the conservancy zoning district language can flow over and apply without affecting the underlying zoning. On the other hand, if it is automatically rezoned to a conservancy district it

could cause an issue of spot zoning. By taking conservancy out as a zoning district and putting in an overlay we can have the benefits of conservancy and avoid spot zoning. We need to research more. By not changing it into a conservancy district that we will not limit the use of the property in accord to the conservancy agreement. This is a topic that will come up in future meetings, but wanted to mention it here tonight for everyone present to mull over the idea of changing this in the Zoning Ordinance.

Mr. Greenslade asked the plan for the Little Traverse Bay Conservancy own property zoning. Mr. Griffiths stated they still need to research this subject further, He was only mentioning it tonight for the interest of the public.

Mr. Greenslade stated the Master Plan is only going to be as good as the input received and find the comments received so far have been very helpful.

Mr. Griffiths stated all input is welcomed and accepted however, not all comments and suggestion will be incorporated.

Mr. Conklin stated he agrees with the water quality concerns. He has seen water qualities damaged in other areas with increasing residential areas. A Susan Shore resident has recently received a high mercury contaminated water test result. The resident is going to be researching if drilling a deeper well or getting a filtration system will solve this issue. The suggestion to test older septic systems, is a great idea and he will research any grant possibilities that may be available for either the township or residents.

Mr. Greenslade stated he recently drilled a new well at a parcel located on Susan Lake at 220' depth, and the water test came back perfect. Therefore, it is most likely a depth issue versus a Susan Lake issue.

Mr. Griffiths stated both Michigan Shores and Susan Lake are older developments and when the land company out of Detroit came up and bought and created small cottage developments, they did not test the water and if they did happen to find bacteria, they thought putting chlorine in it was a fix.

Mr. Conklin stated on page 15 he found the research very well done. An aquifer vulnerability map prepared for the township by Charlevoix County Water Extension Service indicates the potential for groundwater contamination throughout the township is based on the limited ability of soils to filter or protect the groundwater resources.

Mr. Griffiths stated unfortunately the county cannot update the study because it has been turned over to federal agencies, which currently are not available for information and the soils have not changed and won't dramatically change.

100 Mr. Conklin stated if there is anyone in the community that can help with writing grants to help
101 with water testing, please reach out.

102 Ms. Cuddeback asked if the health department has any resources or programs for water
103 testing, water quality should fall under their jurisdiction.

104 Mr. Conklin stated typically the Health department's jurisdiction is making individuals comply
105 with the standards when creating new systems. However, they may be a good resource the
106 steer us in the right direction.

107 Mr. Griffiths stated in past conversations with the health department, the about lot size and
108 limitations on septic and well systems. They told us the soil conditions on each property dictate
109 the plan for approving the septic and well system. They also approve plans for replacement and
110 repairs of the systems.

111 Mr. Greenslade stated the health department is very overwhelmed with under staffing and
112 overworked. The homeowner or builder does not design the septic system, the health
113 department designs and mandates where it goes, how many tanks, how many runs and the
114 depth. Based on the soil type and the perc test results. They also determine where the well can
115 be placed on the property because it has to be so far from the septic field and it depends on the
116 topography of the land.

117

118 **QUESTION PERIOD:**

119 Ms. Kozma requested a well head protection area map be included into the master plan.

120 Mr. Conklin asked Ms. Kozma to research that information.

121 Ms. Kozma asked when the 63 day period begin and when does it end? Where can the Master
122 Plan be found on the website.

123 Mr. Griffiths stated October 31st 2025 was the start of the 63-day period and January 3rd 2026
124 will close the 63-day period. A notice for the public hearing will be posted at that time. The
125 public hearing may be held before the January 20th 2025 Planning Commission meeting
126 however the date will be determined at a later time. The master plan draft can be found on the
127 website under documents, year 2025, PC Packets, Labeled Hayes Township 2024/2025 Master
128 Plan Draft for Review.

129 Mr. McMahon stated the township should bring back the Voice Newsletter to generate more
130 enthusiasm from the public.

131 Mr. Rudolph stated the township should require the water to be tested with each housing sale.

132 Mr. Boyko stated he found very little to criticize with in the Master Plan and found it very well
133 done especially the housing section. On table 8 within the Master Plan show AG as 10 acres and
134 Rural Residential at 5, which is inconsistent with the proposed Zoning Ordinance draft.
135 Mr. Griffiths stated when everything is done and approved it will all be consistent, the housing
136 section was done by Mark Snyder.

A. The Planning Commission shall approve, or approve with conditions, an application for a site plan only upon a finding that the proposed site plan complies with all applicable provisions of this Ordinance and the standards listed below, unless the Planning Commission waives a particular standard upon a finding that the standard is not applicable to the proposed development under consideration and the waiver of that standard will not be significantly detrimental to surrounding property. The Planning Commission's decision shall be in writing and shall include findings of fact, based on evidence presented on each standard. These standards are listed in subsections 1-11 listed below.

1) All elements of the site plan shall be designed so that there is a limited amount of change in the overall natural contours of the site and shall minimize reshaping in favor of designing the project to respect existing features of the site in relation to topography, the size and type of the lot, the character of adjoining property and the type and size of buildings. The site shall be so developed as not to impede the normal and orderly development of surrounding property for uses permitted in this Ordinance.

YES

2) The landscape shall be preserved in its natural state, insofar as practical, by minimizing tree and soil removal, and by topographic modifications which result in smooth natural appearing slopes as opposed to abrupt changes in grade between the project and adjacent areas.

YES

3) Special attention shall be given to proper site drainage so that removal of storm waters will not adversely affect neighboring properties.

YES

Ms. Cuddeback made a motion, supported by Mr. Greenslade to approve the site plan review for 7125 Nine Mile Point Drive as submitted.
