Public Comment at Meetings of the Hayes Township Planning Commission

The Hayes Township Planning Commission values public input and offers an opportunity for the public to comment at its meetings. This affords the Planning Commission the opportunity to hear your views and remarks. If you speak, you should not expect to engage the Planning Commission members or any staff in discussion or debate.

Planning Commission Members will not respond to comments made during the Public Comment unless it becomes necessary to ask a clarifying question, correct a factual error, or to provide specific factual information.

Questions about Township matters are best directed to individual Board members or Township staff (Planner, Zoning Administrator, or Assessor) between meetings. Contact information is available on the township website at: hayestownshipmi.gov.

The availability of public comment is recognized by the Michigan Open Meetings Act. The Act provides that rules may be adopted for orderly comment from the public. To that end, the following rules have been established by the Planning Commission:

1. A person who wishes to speak during Public Comment will sign in and signify that they would like to speak on the form.
2. The person will begin by stating their name, spelling it out if requested.
3. The person addresses the Chairperson, or other person chairing the meeting, on behalf of the entire Planning Commission. Public comment is NOT to be addressed to individual Planning Commission members, to any township staff present, or to other members of the audience.
4. For the first Public Comment period, there is a three (3) minute time allotment for each speaker. The time limit may be extended by the Chairperson or majority of the Planning Commission members present. If a speaker uses less than three (3) minutes, they may not use the remaining time at that Public Comment. A speaker may speak only once at Public Comment. There is no provision for another audience member to 'donate' their three (3) minutes to another speaker. For the second Public Comment session speakers are limited to two (2) minute each.
5. A speaker will be out of order if the speaker disrupts the meeting, fails to be germane, speaks longer than the allotted time, uses vulgarities or makes a personal attack on a Planning Commission member or Township employee that is unrelated to the performance of that person's duties.
6. If a speaker is called out of order, that speaker will not be able to speak again at the same meeting except by special leave of the Planning Commission. If the speaker continues to disrupt the meeting or is disorderly, law enforcement will be called to remove the speaker.
7. The Chairperson, or other person chairing the meeting, will have the discretion to permit members to speak at times other than the times reserved for Public Comment.

APPLICANT(S)/OWNERS: Robert and Zeze Jess
SUBJECT ADDRESS: 10963 Boyne City rd. Charlevoix MI 49720
PARCEL NO: 15-007-120-006-20
ZONING: Ag
PARCEL SIZE: Approximately 10.056 acres (legal lot of record), Average Width is <660ft, Average Length is <635ft

Setback Requirements: (Section 4.13 schedule of regulations)

Front: 25' from Boyne City Rd,
Side: 50'
Rear: 50'

REQUESTS: 1. Application from Robert and Zeze Jess for the rezone of Tax ID# 15-007-120-006-20, 660' wide and 635' long, along Boyne City Road from Agricultural (A) to Rural Residential (RR).

1) The Planning Commission shall review and apply the following standards and factors in the consideration of any rezoning request.

a) Is the proposed rezoning consistent with the Hayes Township Master Plan?

Zoning Administrator finds: Yes, it is consistent.

b) Is the proposed rezoning reasonably consistent with surrounding uses?

Zoning Administrator finds: Yes, consistent with adjacent current uses.

c) Will there be an adverse physical impact on surrounding properties?

Zoning Administrator finds: NO

d) Will there be an adverse effect on property values in the adjacent area?

Zoning Administrator finds: No adverse effect as Rural Residential.

e) Have there been changes in land use or other conditions in the immediate area or in the community in general which justify rezoning?

Zoning Administrator finds: NO

f) Will rezoning create a deterrent to the improvement or development of adjacent property in accord with existing regulations?

Zoning Administrator finds: It will not when used as Rural Residential.

g) Will rezoning grant a special privilege to an individual property owner when contrasted with other property owners in the area or the general public (i.e. will rezoning result in spot zoning)?

Zoning Administrator finds: No special privilege, will not create spot zoning with RR zoning just east of this parcel.

h) Are there substantial reasons why the property cannot be used in accordance with its present zoning classifications?

Zoning Administrator finds: Residential density is limited with AG Zoning.

- i) Is the rezoning in conflict with the planned use for the property as reflected in the Land Use Plan?

Zoning Administrator finds: No

- j) Is the site served by adequate public facilities or is the petitioner able to provide them?

Zoning Administrator finds: Public facilities are not available. Other services would only be required if the parcel were divided.

- k) Are there sites nearby already properly zoned that can be used for the intended purposes?

Zoning Administrator finds: No

- l) Are other local remedies available?

Zoning Administrator finds: NO

Side: 50'
Rear: 50'

REQUESTS: 1. Application from Amanda Earl for the rezone of Tax ID# 15-007-111-009-10, 1365' wide and 530' long, along Burnett Road from Agricultural (A) to Rural Residential (RR).

- 1) The Planning Commission shall review and apply the following standards and factors in the consideration of any rezoning request.

- a) Is the proposed rezoning consistent with the Hayes Township Master Plan?

Zoning Administrator finds: YES

- b) Is the proposed rezoning reasonably consistent with surrounding uses?

Zoning Administrator finds: Yes

- c) Will there be an adverse physical impact on surrounding properties?

Zoning Administrator finds: NO

- d) Will there be an adverse effect on property values in the adjacent area?

Zoning Administrator finds: NO

- e) Have there been changes in land use or other conditions in the immediate area or in the community in general which justify rezoning?

Zoning Administrator finds: NO

- f) Will rezoning create a deterrent to the improvement or development of adjacent property in accord with existing regulations?

Zoning Administrator finds: NO

- g) Will rezoning grant a special privilege to an individual property owner when contrasted with other property owners in the area or the general public (i.e. will rezoning result in spot zoning)?

Zoning Administrator finds: NO

- h) Are there substantial reasons why the property cannot be used in accordance with its present zoning classifications?

Zoning Administrator finds: Agricultural zone limits residential development

- i) Is the rezoning in conflict with the planned use for the property as reflected in the Land Use Plan?

Zoning Administrator finds: NO

- j) Is the site served by adequate public facilities or is the petitioner able to provide them?

Zoning Administrator finds: NO public utilities. Only necessary with parcel division.

- k) Are there sites nearby already properly zoned that can be used for the intended purposes?

Zoning Administrator finds: NO

- l) Are other local remedies available?

Zoning Administrator finds: NO

REQUESTS: 1. Applicant proposes to amend the PUD, reducing the total number of units from 44 to 24 and constructing 16 new single-family units instead of the originally approved four-plexes.
The original Planned Unit Development (PUD) was approved on May 18th 1999, consisting of 44 residential units (11 four-plex buildings). 8 residential units (2 fourplex buildings) have been constructed.

ZONING ADMINISTRATOR COMMENTS/REVIEW:

The proposed amendment to the County Club Fairways PUD generally conforms to the original PUD approval and zoning ordinance requirements, except for proposed building envelopes reflecting smaller setbacks. The planning commission under these standards for approval, 3) Waiver of Standards: may consider or waive any of the standards for a PUD with documented rationale. Consideration should be considered for the reduction in the previous approval of 44 condo-type units to 24 single-family units when considering these standards.

H. *Standards for PUD Approval; Conditions; Waiver of PUD Standards.*

- 1) *General Standards.* The Planning Commission shall approve, or approve with conditions, a PUD application if the Planning Commission finds that the proposed PUD meets the standards of **Article V** and **Section 6.02.4** and all of the following:

- a) The planned unit development shall be consistent with the Hayes Township Master Plan.

Zoning Administrator finds: Yes, page 23, Master Plan (goal)

- b) The planned unit development shall be designed, constructed, operated and maintained in a manner harmonious with the character of adjacent property and the surrounding area. Landscaping shall ensure that proposed uses will be adequately buffered from one another and from surrounding public and private property and will be consistent with outdoor pedestrian movement. Vegetation proposed by the developer or required by the Planning Commission shall be maintained in a healthy, living condition, and any dead vegetation shall be replaced.

Zoning Administrator finds: Consistent with the originally approved PUD, adjacent buffering and vegetation are provided.

- c) The planned unit development shall not change the essential character of the surrounding area, unless such change is consistent with the Township's current master plan.

Zoning Administrator finds: It does not change the essential

character by maintaining a residential community.

- d) The planned unit development shall be designed to preserve public vistas and existing important natural, historical, and architectural features of significance within the development.

Zoning Administrator finds: The character will not change from the original PUD approval.

- e) The planned unit development shall be designed so that its pedestrian, non-motorized and automobile circulation systems are safely and conveniently integrated with those of abutting property and any linear trail or park systems intersecting or abutting such development.

Zoning Administrator finds: NO Changes

- f) The planned unit development shall provide that vehicular and pedestrian traffic within the site shall be safe and convenient and that parking layout will not adversely interfere with the flow of traffic within the site or to and from the adjacent streets. Safe and adequate access for emergency vehicles to or within the development and adequate space for turning around at street ends shall be provided.

Zoning Administrator finds: Circulation systems have been improved to provide access and emergency services.

- g) The planned unit development shall not result in any greater storm water runoff to adjacent property after development, than before. The open space shall be provided with ground cover suitable to control erosion, and vegetation which no longer provides erosion control shall be replaced.

Zoning Administrator finds: Changes to the original approval of PUD decrease stormwater management.

- h) The design of the planned unit development shall exhibit a reasonably harmonious relationship between the location of buildings on the site relative to buildings on lands in the surrounding area; and there shall be a reasonable architectural and functional compatibility between all structures on the site and structures within the surrounding area. It is not intended that contrasts in architectural design and use of facade materials is to be discouraged, but care shall

be taken so that any such contrasts will not be so out of character with existing building designs and facade materials so as to create an adverse effect on the stability and value of the surrounding area.

Zoning Administrator finds: Character is improved with proposed changes.

- i) The planned unit development shall be designed such that phases of development are in a logical sequence, so that any one phase will not depend upon a subsequent phase for adequate access, public utility services, and drainage or erosion control.

Zoning Administrator finds: Proposing only one phase.

- j) The planned unit development shall provide for underground installation of all utilities.

Zoning Administrator finds: All utilities are underground.

- 2) *Conditions.* The Planning Commission may impose reasonable conditions with the approval of a final site plan, pursuant to **Section 9.03** of this Ordinance.
- 3) *Waiver of PUD Standards.* The Planning Commission may waive any of the standards for a PUD contained in subsection H. above where all of the following findings are documented along with the rationale for the decision:
 - a) No good public purpose will be achieved by requiring conformance with the standards sought by the applicant to be waived.
 - b) The spirit and intent of the PUD provisions will still be achieved.
 - c) No nuisance will be created.

Hi Ron,

This is Rick Tyner. As you may recall, you helped me with our, AT/CCF LLC, request, to Hayes Township, to amend the Country Club Fairways Planned Unit Development to exclude two acres with 2-4 units condominiums from the original 12.53 acres. The request was approved by the Planning Commission on October 26, 2021.

The original development was approved by Hayes Township on May 18, 1999. More specifically, the development was approved as a PUD with the underlying R-4 zoning. I have several questions for you regarding our future plans for the 10.53 acres.

I reviewed Section 6.03 Planned Unit Development, Subsection 2L - Amendment of an Approved Planned Unit Development. When considering our future building plans, will we have to go through a process of receiving any new approvals from the Planning Commission or the Planning Commission and the Township Board or can you, as the Zoning Administrator, approve the prospective modifications stated below? The a, b and d lettering below follows the "minor changes" list that can be approved by the Zoning Administrator.

- a. Reduce the sq. footage size of future units to no less than 900 square feet (R4 minimum square footage), but most likely they will be larger.
- b. Reduce the side yard set back, which as a result of the amendment to the Country Club Fairway PUD is now the set back between the property splits of the 10.53 acre piece and the 2.00 acre piece that has the 2-4 units condominiums built on it and a future building on the 10.53 acre piece. If you look at the original approved PUD site plan, Building 8 (future building on the 10.53 acre piece) and Building 9 (already built and occupied on the 2.00 acre piece) are adjacent to each other. We would like to leave the building locations "as is" or somehow reduce the separate property setback requirements between buildings 8 and 9.
- d. Change in floor plans.

After your review, please contact me to discuss. **Please confirm receipt of this email.**

Thank you,
Rick

I am submitting the proposed plan for the shoreline at 7875 Eagle Nest Circle.

A single corridor will be cleared to give a lake view from the home, as well as provide ease of access to the lake. The corridor will be at the 20% limit or less, with the allowance to remove all dead, sick and fallen trees. The remaining area of the shoreland protection strip will be maintained in existing natural state.

A plan to have walkout access (dock) from the legacy shore to Susan Lake will be constructed. This plan will coincide with the rules in section 3.14.3.D; parts I-IV.

Any replacement/planting trees, vegetation, herbaceous plants, or shrubs will be chosen from the recommended species listed in the Northwest Michigan Invasive Species Network.

Report of the Shoreland Protection Subcommittee on 7875 Eagle Nest Dr., Charlevoix.

A project to build a new home on a vacant waterfront lot on Susan Lake was submitted to the township zoning administrator. A site visit was conducted by VanZee, Griffiths, Martin, Conklin and Noah Jansen (Tip of the Mitt) on July 15, 2026. Submitted plans call for leaving the current plants and trees as they are except for trimming to allow a view corridor and creating a path to the water.

The parcel is a 1.76-acre lot that averages several hundred feet deep and initially slopes moderately towards the water until a short distance to the water at which point the slope increases gradually to the OHWM. The proposed building site is at least one hundred feet from the OHWM. The plan as proposed leaves the existing vegetative buffer in place with the allowed changes per the ordinance mentioned above. No significant ground work has been done as of yet. A path to reach the waterfront is proposed not to exceed 6 feet wide for the length of the access route. The existing plantings in what will be the shoreland protection strip are trees, a mix of pines, firs, and cedars of various ages and the typical ground cover that grows under them. The area hosts many native species of plants that thrive in acidic soils. Selective trimming of trees and removal of dead and damaged trees while retaining the stump/root structure consistent with the ordinance is planned.

The owner has committed to maintaining the shoreland area in its current natural state per the attached email and the drawing showing the location of the proposed view corridor and path.

Given the nature of the property and the natural state of the shoreline, it is recommended that the Plan be approved.
